

# Alex Morgan

Full-stack development

Calgary, Alberta · alex.morgan@example.com

## Profile

---

Student interested in full-stack development and collaborative software projects. Enjoys turning a small, clearly defined problem into a working prototype, reviewing feedback, and documenting decisions for the next contributor.

## Education

---

### Mount Royal University

Expected 2027

BSc Computer Science

Coursework and independent study: programming fundamentals, applied problem solving, technical communication, and collaborative project work.

## Technical skills

---

TypeScript, React, Node.js, PostgreSQL, Git.

## Experience

---

### Software Developer Intern

May–August 2025

*Prairie Pixel Studio — fictional organization*

- Implemented accessible search and filtering for an internal project directory.
- Added API validation and integration tests for account settings.
- Shared progress in weekly demos and kept setup notes current for teammates.

## Selected projects

---

### Campus Connect

2026

- Built a student club directory with event registration and organizer tools.
- Used database constraints to prevent duplicate registrations.

### Study Sprint

2025

- Created a shared study timer with session history and weekly summaries.
- Documented the setup process, known limitations, and ideas for future work.

## Community

---

Participates in student coding meetups, peer project reviews, and beginner workshops. Interested in hackathon teams that value clear communication and practical scope.
