

# Samira Chen

Data science

Calgary, Alberta · samira.chen@example.com

## Profile

---

Student interested in data science and collaborative software projects. Enjoys turning a small, clearly defined problem into a working prototype, reviewing feedback, and documenting decisions for the next contributor.

## Education

---

**University of Calgary** Expected 2027  
BSc Data Science  
Coursework and independent study: programming fundamentals, applied problem solving, technical communication, and collaborative project work.

## Technical skills

---

Python, pandas, scikit-learn, SQL, Jupyter.

## Experience

---

**Data Analyst Intern** May–August 2025  
*Foothill Analytics Lab — fictional organization*

- Cleaned transit survey records and documented assumptions for missing values.
- Built reproducible notebooks comparing weekday and weekend demand.
- Shared progress in weekly demos and kept setup notes current for teammates.

## Selected projects

---

**Transit Trends** 2026  
• Explored bus arrival patterns using a synthetic transit dataset.  
• Separated training and validation data by date to avoid leakage.

**Budget Lens** 2025  
• Built a dashboard that groups mock expenses and highlights monthly changes.  
• Documented the setup process, known limitations, and ideas for future work.

## Community

---

Participates in student coding meetups, peer project reviews, and beginner workshops. Interested in hackathon teams that value clear communication and practical scope.
