

Jordan Patel

Mobile development

Calgary, Alberta · jordan.patel@example.com

Profile

Student interested in mobile development and collaborative software projects. Enjoys turning a small, clearly defined problem into a working prototype, reviewing feedback, and documenting decisions for the next contributor.

Education

University of Alberta Expected 2028
BSc Computing Science
Coursework and independent study: programming fundamentals, applied problem solving, technical communication, and collaborative project work.

Technical skills

Kotlin, Jetpack Compose, Swift, SQLite, Git.

Experience

Mobile Developer Intern May–August 2025
North Loop Software — fictional organization

- Implemented offline reading lists with clear sync status indicators.
- Fixed screen reader labels and added UI tests for onboarding.
- Shared progress in weekly demos and kept setup notes current for teammates.

Selected projects

Trail Notes 2026

- Built an offline hiking journal with location tags and photo captions.
- Used a local database and queued uploads for intermittent connections.

Pantry Pal 2025

- Created a grocery inventory app with expiry reminders and barcode entry.
- Documented the setup process, known limitations, and ideas for future work.

Community

Participates in student coding meetups, peer project reviews, and beginner workshops. Interested in hackathon teams that value clear communication and practical scope.
