

Casey Nguyen

Cloud infrastructure

Calgary, Alberta · casey.nguyen@example.com

Profile

Student interested in cloud infrastructure and collaborative software projects. Enjoys turning a small, clearly defined problem into a working prototype, reviewing feedback, and documenting decisions for the next contributor.

Education

Southern Alberta Institute of Technology

Expected 2026

Software Development Diploma

Coursework and independent study: programming fundamentals, applied problem solving, technical communication, and collaborative project work.

Technical skills

Docker, Linux, Terraform, Python, GitHub Actions.

Experience

Platform Intern

May–August 2025

Cedar Cloud Works — fictional organization

- Containerized a demo service and documented local setup steps.
- Added health checks and a deployment rollback checklist.
- Shared progress in weekly demos and kept setup notes current for teammates.

Selected projects

Deploy Desk

2026

- Built a small service dashboard showing deployment and health history.
- Used least-privilege service accounts and explicit environment configuration.

Log Lantern

2025

- Created a command-line utility for grouping structured application logs.
- Documented the setup process, known limitations, and ideas for future work.

Community

Participates in student coding meetups, peer project reviews, and beginner workshops. Interested in hackathon teams that value clear communication and practical scope.
