

Riley Thompson

Cybersecurity

Calgary, Alberta · riley.thompson@example.com

Profile

Student interested in cybersecurity and collaborative software projects. Enjoys turning a small, clearly defined problem into a working prototype, reviewing feedback, and documenting decisions for the next contributor.

Education

University of Calgary Expected 2028
BSc Computer Science
Coursework and independent study: programming fundamentals, applied problem solving, technical communication, and collaborative project work.

Technical skills

Python, Linux, Wireshark, SQL, threat modeling.

Experience

Security Intern May–August 2025
Maple Shield Labs — fictional organization

- Reviewed a sandbox web application for common authorization mistakes.
- Wrote remediation notes and regression cases for the development team.
- Shared progress in weekly demos and kept setup notes current for teammates.

Selected projects

Permission Playground 2026

- Built a local demo comparing role assignments and permission checks.
- Added tests for revoked access and cross-account requests.

Safe Share 2025

- Created an expiring file-sharing prototype with audited download events.
- Documented the setup process, known limitations, and ideas for future work.

Community

Participates in student coding meetups, peer project reviews, and beginner workshops. Interested in hackathon teams that value clear communication and practical scope.
