

Avery Singh

Embedded systems

Calgary, Alberta · avery.singh@example.com

Profile

Student interested in embedded systems and collaborative software projects. Enjoys turning a small, clearly defined problem into a working prototype, reviewing feedback, and documenting decisions for the next contributor.

Education

University of Alberta

Expected 2027

BSc Computer Engineering

Coursework and independent study: programming fundamentals, applied problem solving, technical communication, and collaborative project work.

Technical skills

C, C++, ESP32, I2C, Python, Git.

Experience

Firmware Intern

May–August 2025

Aurora Sensor Studio — fictional organization

- Implemented sensor sampling and error reporting for a prototype board.
- Created a serial test harness for repeatable hardware checks.
- Shared progress in weekly demos and kept setup notes current for teammates.

Selected projects

Room Pulse

2026

- Built a temperature and air-quality monitor with an ESP32.
- Buffered readings locally when the wireless connection was unavailable.

Plant Watch

2025

- Prototyped a soil moisture indicator with configurable alert thresholds.
- Documented the setup process, known limitations, and ideas for future work.

Community

Participates in student coding meetups, peer project reviews, and beginner workshops. Interested in hackathon teams that value clear communication and practical scope.
