

Morgan Lee

Backend engineering

Calgary, Alberta · morgan.lee@example.com

Profile

Student interested in backend engineering and collaborative software projects. Enjoys turning a small, clearly defined problem into a working prototype, reviewing feedback, and documenting decisions for the next contributor.

Education

Mount Royal University Expected 2026
BSc Computer Science
Coursework and independent study: programming fundamentals, applied problem solving, technical communication, and collaborative project work.

Technical skills

Java, Spring Boot, PostgreSQL, Redis, Docker.

Experience

Backend Developer Intern May–August 2025
Riverbend Systems — fictional organization

- Added pagination and request validation to a mock inventory API.
- Investigated slow queries and documented index tradeoffs.
- Shared progress in weekly demos and kept setup notes current for teammates.

Selected projects

Borrow Board 2026

- Built a lending API for a campus equipment library.
- Used transactions to prevent two borrowers reserving the same item.

Job Runner 2025

- Implemented a background task queue with retries and idempotency keys.
- Documented the setup process, known limitations, and ideas for future work.

Community

Participates in student coding meetups, peer project reviews, and beginner workshops. Interested in hackathon teams that value clear communication and practical scope.
