

Quinn Adams

Quality engineering

Calgary, Alberta · quinn.adams@example.com

Profile

Student interested in quality engineering and collaborative software projects. Enjoys turning a small, clearly defined problem into a working prototype, reviewing feedback, and documenting decisions for the next contributor.

Education

Southern Alberta Institute of Technology

Expected 2027

Software Development Diploma

Coursework and independent study: programming fundamentals, applied problem solving, technical communication, and collaborative project work.

Technical skills

Playwright, TypeScript, Vitest, SQL, GitHub Actions.

Experience

QA Automation Intern

May–August 2025

Aspen Test Works — fictional organization

- Automated checkout tests against a disposable staging database.
- Improved failure reports with screenshots and reproducible test data.
- Shared progress in weekly demos and kept setup notes current for teammates.

Selected projects

Test Trail

2026

- Built an issue reproduction tracker with browser and build metadata.
- Added deterministic fixtures for empty, error, and permission-denied states.

Form Forge

2025

- Created a validation demo covering keyboard access and inline errors.
- Documented the setup process, known limitations, and ideas for future work.

Community

Participates in student coding meetups, peer project reviews, and beginner workshops. Interested in hackathon teams that value clear communication and practical scope.
