

Cameron Wilson

Machine learning

Calgary, Alberta · cameron.wilson@example.com

Profile

Student interested in machine learning and collaborative software projects. Enjoys turning a small, clearly defined problem into a working prototype, reviewing feedback, and documenting decisions for the next contributor.

Education

University of Calgary Expected 2027
BSc Computer Science
Coursework and independent study: programming fundamentals, applied problem solving, technical communication, and collaborative project work.

Technical skills

Python, PyTorch, NumPy, FastAPI, matplotlib.

Experience

Research Assistant May–August 2025
Summit Research Studio — fictional organization

- Compared lightweight image classifiers on a classroom dataset.
- Recorded experiment parameters and reviewed failure cases with a mentor.
- Shared progress in weekly demos and kept setup notes current for teammates.

Selected projects

Recycle Sort 2026

- Trained a prototype classifier on labeled synthetic packaging images.
- Reported per-class performance and uncertain predictions.

Note Neighbors 2025

- Built a semantic search demo for an openly licensed study-note collection.
- Documented the setup process, known limitations, and ideas for future work.

Community

Participates in student coding meetups, peer project reviews, and beginner workshops. Interested in hackathon teams that value clear communication and practical scope.
