

# Robin Park

Frontend accessibility

Calgary, Alberta · robin.park@example.com

## Profile

---

Student interested in frontend accessibility and collaborative software projects. Enjoys turning a small, clearly defined problem into a working prototype, reviewing feedback, and documenting decisions for the next contributor.

## Education

---

**Mount Royal University** Expected 2028  
BSc Computer Science  
Coursework and independent study: programming fundamentals, applied problem solving, technical communication, and collaborative project work.

## Technical skills

---

React, TypeScript, CSS, axe-core, Storybook.

## Experience

---

**Frontend Intern** May–August 2025  
*Kindred Web Studio — fictional organization*

- Reworked navigation focus order and visible keyboard focus styles.
- Documented accessible form patterns in a shared component library.
- Shared progress in weekly demos and kept setup notes current for teammates.

## Selected projects

---

**Access Atlas** 2026

- Built a campus resource directory with keyboard-first navigation.
- Tested headings, contrast, and error announcements with assistive tools.

**Reading Room** 2025

- Created a reading interface with adjustable text size and saved preferences.
- Documented the setup process, known limitations, and ideas for future work.

## Community

---

Participates in student coding meetups, peer project reviews, and beginner workshops. Interested in hackathon teams that value clear communication and practical scope.
