

Drew Martinez

Data engineering

Calgary, Alberta · drew.martinez@example.com

Profile

Student interested in data engineering and collaborative software projects. Enjoys turning a small, clearly defined problem into a working prototype, reviewing feedback, and documenting decisions for the next contributor.

Education

University of Alberta	Expected 2026
BSc Computing Science	
Coursework and independent study: programming fundamentals, applied problem solving, technical communication, and collaborative project work.	

Technical skills

Python, SQL, DuckDB, dbt, Docker.

Experience

Data Engineering Intern	May–August 2025
<i>Clearwater Data Co-op — fictional organization</i>	

- Built validation checks for daily imports of synthetic sales records.
- Documented table ownership and data freshness expectations.
- Shared progress in weekly demos and kept setup notes current for teammates.

Selected projects

Pipeline Post	2026
----------------------	------

- Created a scheduled import pipeline with schema and duplicate checks.
- Preserved rejected rows for investigation and safe reprocessing.

City Metrics	2025
---------------------	------

- Modeled public aggregate data into reusable analytical tables.
- Documented the setup process, known limitations, and ideas for future work.

Community

Participates in student coding meetups, peer project reviews, and beginner workshops. Interested in hackathon teams that value clear communication and practical scope.
