

Skyler Ahmed

Robotics

Calgary, Alberta · skyler.ahmed@example.com

Profile

Student interested in robotics and collaborative software projects. Enjoys turning a small, clearly defined problem into a working prototype, reviewing feedback, and documenting decisions for the next contributor.

Education

University of Calgary Expected 2027
BSc Mechanical Engineering
Coursework and independent study: programming fundamentals, applied problem solving, technical communication, and collaborative project work.

Technical skills

Python, C++, ROS 2, CAD, Linux.

Experience

Student Robotics Developer May–August 2025
Northstar Robotics Club — fictional organization

- Integrated wheel encoders and visualized telemetry during lab trials.
- Wrote setup instructions for new team members working on simulation.
- Shared progress in weekly demos and kept setup notes current for teammates.

Selected projects

Line Scout 2026

- Built a small rover that follows marked paths in a controlled lab.
- Tuned steering with repeatable test tracks and logged sensor readings.

Arm Sim 2025

- Created a simulated pick-and-place routine with collision checks.
- Documented the setup process, known limitations, and ideas for future work.

Community

Participates in student coding meetups, peer project reviews, and beginner workshops. Interested in hackathon teams that value clear communication and practical scope.
