

Emerson Davis

Human-computer interaction

Calgary, Alberta · emerson.davis@example.com

Profile

Student interested in human-computer interaction and collaborative software projects. Enjoys turning a small, clearly defined problem into a working prototype, reviewing feedback, and documenting decisions for the next contributor.

Education

University of Calgary	Expected 2027
BSc Psychology, Computing Minor	
Coursework and independent study: programming fundamentals, applied problem solving, technical communication, and collaborative project work.	

Technical skills

Figma, Python, survey design, usability testing, HTML.

Experience

Student Research Assistant	May–August 2025
<i>Fieldnote Interaction Lab — fictional organization</i>	
- Organized anonymized usability notes and coded recurring themes. - Helped prepare study materials and accessible participant instructions. - Shared progress in weekly demos and kept setup notes current for teammates.	

Selected projects

Wayfinding Study	2026
- Compared two campus navigation prototypes in a classroom study. - Summarized task completion patterns and design limitations.	
Check In	2025
- Prototyped a simple habit journal with user-controlled reminders. - Documented the setup process, known limitations, and ideas for future work.	

Community

Participates in student coding meetups, peer project reviews, and beginner workshops. Interested in hackathon teams that value clear communication and practical scope.
