

Sage Bennett

Web and API development

Calgary, Alberta · sage.bennett@example.com

Profile

Student interested in web and api development and collaborative software projects. Enjoys turning a small, clearly defined problem into a working prototype, reviewing feedback, and documenting decisions for the next contributor.

Education

Bow Valley College Expected 2027
Software Development Diploma
Coursework and independent study: programming fundamentals, applied problem solving, technical communication, and collaborative project work.

Technical skills

TypeScript, Node.js, React, SQLite, Git.

Experience

Junior Developer Co-op May–August 2025
Bluebird App Studio — fictional organization

- Implemented profile editing with persistent inline validation messages.
- Added unit tests and reviewed pull requests with a senior mentor.
- Shared progress in weekly demos and kept setup notes current for teammates.

Selected projects

Meal Map 2026

- Built a meal-planning app using a fictional recipe collection.
- Designed API endpoints for saved recipes and shopping lists.

Hack Buddy 2025

- Created a team-finding prototype with skills filters and invitation links.
- Documented the setup process, known limitations, and ideas for future work.

Community

Participates in student coding meetups, peer project reviews, and beginner workshops. Interested in hackathon teams that value clear communication and practical scope.
